To the Teacher:

The journal pages should be copied and printed on regular 8.5 x 11 inch paper, then cut in half.

This method is far easier than creating regular, full sheet pages which are folded to form a booklet.

The cover (which will be created by the student in the next lesson) will be a full sheet, folded in half to form a booklet.

The booklet can easily be stapled when complete.

Extra, lined sheets are provided at the end, if needed.
