Project Description
Your job is to take the facts from the Abraham Lincoln project and organize them into a PowerPoint presentation. Your PowerPoint presentation will have a total of five slides: one title slide and four content slides. Use your character maps to help you create a theme for each slide. You will need to copy a picture from the internet to accompany each content slide. Make sure each content slide has a main idea and the details to support it.

Title Slide (Slide #1)
The title slide must include:
- the title of your project (top box)
- your name (bottom box)
- teacher’s name (bottom box)
- today’s date

Slides #2-5
Each content slide must include:
- a minimum of 2 statements
- all statements must be bulleted
- all statements must be grammatically correct (see below)
- include a picture that you copied from the internet. This picture should directly relate to the content of the statements on the content page. At least 2 pictures need to come from the American Memory site at the Library of Congress.

Grammar Requirements
In order to earn full points, follow the rules for writing a complete sentence.
- Use capital letters to begin sentences and for proper nouns.
- Remember to use ending punctuation. Be adventurous and try using at least one exclamatory sentence!
- All sentences need to have a minimum of (at least) 7 words.
- Words must be spelled correctly. Use the spell check feature in PowerPoint to proof your spelling.
